Category:Audio engineering Category:Euphemisms Category:EtiquetteIn recent years, a conventional technique, for example, disclosed in Patent Document 1, has been known as a conventional technique relating to a control apparatus for a vehicle. The conventional technique is a control apparatus for a vehicle for driving an engine in a plurality of modes, including a plurality of sets of one of the modes and a plurality of sets of another of the modes. In the conventional technique, during the engine driving in a first of the modes, the operation of an operating unit, which is capable of changing the driving state of an air conditioner, is allowed to be performed in a first limit condition, and during the engine driving in a second of the modes, the operation of the operating unit is allowed to be performed in a second limit condition. In the conventional technique, when the driving state of the air conditioner is switched from the first limit condition to the second limit condition during the engine driving in the second of the modes, it is determined whether the engine speed is an engine speed that is higher than the set engine speed (hereinafter, referred to as a “the upper engine speed”) or the set engine speed (hereinafter, referred to as a “the lower engine speed”). When the engine speed is the upper engine speed, the driving state of the air conditioner is switched from the first limit condition to the second limit condition at a time (hereinafter, referred to as a “upper time”) when the engine speed reaches the upper engine speed. On the other hand, when the engine speed is the lower engine speed, the driving state of the air conditioner is switched from the first limit condition to the second limit condition at a time (hereinafter, referred to as a “lower time”) when the engine speed reaches the lower engine speed. Patent Document 1: Japanese Patent Laid-Open No. H11-261913.

The Visionaries: Out of the Shambles The Visionaries: Out of the Shambles (2008) is an album by the progressive rock band Vision Fugue. Track listing All tracks written by John Wetton, except where noted. Personnel John Wetton — lead vocals, bass Karl Jenkins — keyboards Paul Humphreys — drums Vince White — guitar, mandolin, backing vocals Aynsley Dunbar — saxophone
