Category:Native Instruments"But the interesting thing about it is, three of the four times he takes the job away from Eli (Manning), he has a better team record than Eli. "But I don't really believe the success is on him. I think, 'Am I the best quarterback in the league?' Hell no. "I think it's about (trying to be) the best quarterback. That's why you get better, because you want to be better." Some of those quarterbacks have found their way into the owner's box. I had a chance to sit down with the Colts' owner Bob Irsay yesterday. It was fascinating talking to him, I've been wanting to for a long time, I got the chance a few months ago. He was a man of his word and he changed his entire interview system. Irsay seemed different. He spoke about things he didn't talk about before and also opened up a lot about his life and his family and more. This is the second piece on him that I've ever done. The first time I got the chance to talk to him was for a Sports Illustrated story in 2003. It was around the time that he was in a nasty divorce fight with his wife Rita and that opened up a lot more about him. He pretty much had a closed off wall around him then. At this point, it was pretty clear he was a pretty good guy, one who cares deeply about his team and its fans and he talks about it all the time. He's a man of the world. He lives in a big mansion in Indianapolis with his wife, and his three kids and two dogs, one a German Shepherd. He likes racing. He likes sports. He loves to walk. He's made his money from building and owning a mediocre baseball team. He doesn't have a problem with admitting that. He's not greedy. He knows there are no free passes here in life. If you want to be successful, you have to work for it. If you're not good enough to be an owner, you won't be an owner. He's appreciative of what he's been able to do and he knows he's lucky to have made it at this late stage in his life. At one point, I asked Irsay about the evolution of the franchise and how he went from being the biggest loser in the league to now being a winning owner. "I think it was when we
