World is a unique sandbox. There are two
sides to the game: humans and monsters.
For people, simple survival conditions have
been created, by type, collect resources,
build a house, kill monsters, protect
buildings from zombies. Difficult survival
conditions have been created for the
monster, where you need to look for
resources, build buildings, fight monsters

and other players. The game features four countries of people and four countries of monsters. And each country has its own characteristics, its monsters, its weapons, and its buildings. To survive, you will need to build all
